Mr. Wejnert concentrates his practice on licensing, patent preparation, prosecution and litigation for complex technologies, including Internet and wireless technologies, telecommunications, medical device, blockchain, semiconductors, MEMs, chip microarchitecture, software, hardware and database systems. Jason has advised and represented clients in complex matters involving patents, trademarks, copyrights, trade secrets, technology licensing, employment contracts, non-compete agreements, customs and importation, and more, on behalf of clients ranging from small businesses to multi-national corporations.

Industry Experience

Jason has over nine years engineering experience in semiconductor manufacturing, failure analysis, yield enhancement and medical device and rocketry circuitry troubleshooting. He worked at Intel, Medtronic, Motorola and Boeing as a process engineer and failure analysis engineer.
