- Utah State Bar
- Utah State Supreme Court
- U.S. District Court for the District of Utah

Languages

- Fluent in Spanish

Mr. Pate focuses his practice on patent application preparation and prosecution for mechanical, electro-mechanical, and software systems. He also assists clients in federally registering their trademarks, provides strategic intellectual property counseling, and assists with management of intellectual property portfolios.

Mr. Pate is the director of the Young Basile Patent Apprenticeship, which is a unique, year-round, employment opportunity for law students. The apprenticeship builds core competencies in patent law, so law students can contribute in meaningful ways during law school and be better prepared for practice at Young Basile when they graduate. As director, Mr. Pate provides training, mentorship, and one-on-one feedback on each student's journey from trainee to practitioner.

Industry Experience

Before entering the legal profession, Mr. Pate worked at the Utah State University Space Dynamics Laboratory where he assisted in the fabrication of radiation shielding and its application to the SABER instrument (an earth orbiting infrared instrument launched in December 2001) and performed thermal conductivity analysis used to design conductive heat sinks for cooling circuit boards.

Professional Activities

- Utah Bar Association, Intellectual Property Law Section
